

Pool & Spa Retailers Benefit as Payment Processing, Inc. and Evosus Software Dive into Strategic Partnership

Integrated payment processing increases merchant convenience and cost savings

Newark, CA – October 28, 2008 – Payment Processing, Inc. (PPI), the industry leader for integrated payment solutions, today announced a partnership with Evosus, Inc., developer of the Evosus Retail software application. Through the partnership, PPI payment technology will be integrated with Evosus Retail, permitting secure and rapid credit card payment processing for pool & spa retail operations.

Evosus Retail is an all-in-one software program built for the pool & spa industry. It includes everything needed to run an efficient retail business – point-of-sale, marketing, inventory, employee management, accounting and more.

“Evosus has created a total software package for the niche pool & spa market,” states Chuck Riegel, executive vice president, software products and partnerships at PPI. “Including payment processing from PPI with this application fills out the offering, ensuring seamless and safe card-based transactions.”

Curt Germundson, president of Evosus said, “Our goal is to develop software applications that make life easier for pool & spa merchants. We’re poised to do that with the addition of PPI’s highly integrated technology solutions to our own.”

PPI’s comprehensive solutions are developed and supported completely in-house by PPI experts, resulting in a unique 360-degree view of the entire payment transaction. Each solution includes all of the critical products and services that define successful integrated payment processing:

- Free, feature-rich, fast and dependable payment technology
- Seamless and secure transaction processing
- Free developer kit and integration/certification services
- PA-DSS/PCI-DSS validation services for software developers and their customers
- Dedicated account managers for developers and their resellers
- Aggressive revenue sharing programs
- Marketing services to promote the integrated solution to customers
- Free, unlimited 24/7/365 technical support from experts familiar with the specific solution
