Newark, CA – September 8, 2010 – Payment Processing, Inc. (PPI), the industry leader for integrated payments solutions, has again been named to the Inc. 5000 list of the nation's fastest growing privately held companies. Through new product development, improved customer service and continued channel partner growth, PPI has shown growth of **80%** since first being named to the prestigious ranking three years ago.

“The leaders of the companies on this year's Inc. 5000 have figured out how to grow their businesses during the longest recession since the Great Depression,” said Inc. president Bob LaPointe. “The 2010 Inc. 5000 showcases a particularly hardy group of entrepreneurs.”

“We are honored to be recognized by Inc. Magazine for a third year. Our commitment to leading a constantly shifting payments market – by pushing the envelope with industry-first security products and by delivering second-to-none payment processing solutions – has led to this growth,” said Eddie Myers, president of Payment Processing, Inc. “I would like to thank our software developer partners, the businesses that process with us, and our talented and dedicated staff for contributing to PPI's continued success.”
