

## **FOR IMMEDIATE RELEASE**

### **PPI and Dinerware Partner to Provide Restaurants with Comprehensive Integrated Payment Processing Solution**

*Superior Credit Card and Gift Payment Services for Independent Restaurants and Restaurant Chains*

**Newark, CA – June 24, 2008** -- Payment Processing, Inc. (PPI), the industry leader for integrated payment solutions, today announced a partnership with Dinerware, Inc., a leading developer of intuitive touchscreen POS (point of sale) systems for independent restaurants and chains. Now currently available, the solution includes PPI PayMover free gateway services and integrated gift card processing.

“PPI and Dinerware both have market-leading solutions that are critical to the success of their customers businesses,” said Chuck Riegel, executive vice president, software products and partnerships at PPI. “PPI has a history of partnering with top-tier enterprises such as Dinerware to offer must-have products for the marketplace, including the ability to accept credit, debit and gift cards.”

“Many restaurants and chains rely exclusively on Dinerware POS software systems, so the addition of PPI PayMover technology gives them a way to reap the benefits of a comprehensive integrated credit card processing solution,” said Jeff Riley, Dinerware CEO. “Dinerware looks forward to passing along the great benefits of PPI’s solution to our customers that demand only the best technology to run their businesses.”

PPI’s comprehensive solutions are developed and supported completely in-house by PPI experts, resulting in a unique 360-degree view of the entire payment transaction. Each solution includes all of the critical products and services that define a successful integrated payment solution:

- Free, feature-rich, fast and dependable payment technology with transaction processing that is seamless, secure and reliable
- Free developer kit and integration/certification services
- Free PADSS/PCI validation services
- Dedicated account managers for developers and their resellers
- Aggressive revenue sharing program
- Marketing services to promote the integrated solution to customers
- Free, unlimited 24/7/365 technical and merchant account support from experts familiar with the specific solution.

**About Dinerware Incorporated**

Dinerware is an intuitive restaurant touch screen system designed for independent restaurants. End users easily automate with the latest technology helping to lower the total cost of ownership. For more information, visit [www.dinerware.com](http://www.dinerware.com).

**About Payment Processing, Inc.**

Since 1995, PPI has led the industry in providing software developers with a full range of services for developing and promoting integrated payment solutions, including PPI-developed payment gateway technology, integration support, merchant support, marketing assistance and PADSS/PCI security services. Today, PPI is the most successful company in the world focused on integrated payment solutions, supporting over 1,000 partners and nearly 28,000 merchants with efficient, cost-effective payment solutions. In 2007, PPI processed in excess of \$4.1 billion in Visa<sup>®</sup> and MasterCard<sup>®</sup> payments. For more information, visit [www.paypros.com](http://www.paypros.com).
