

FOR IMMEDIATE RELEASE

Payment Processing, Inc. Provides Liberty Computers with Integrated Credit Card Processing for its Dry Cleaning Software *Customers benefit from easy and efficient payment processing*

Newark, California, June 13, 2007 – Payment Processing, Incorporated (PPI), the industry leader for integrated payment solutions, today announced a partnership with Liberty Computers, a developer of dry cleaning point-of-sale software. With the new integrated solution, customers of Liberty Computers can process credit card transactions more quickly and easily, and with fewer manual entry errors than previously.

“Liberty Computers has always focused on developing software that’s simple for customers to use. In keeping with this tradition, the PPI solution gives our customers a single resource for everything needed to process credit cards,” says Doug Walton, president of Liberty Computers. “A typical bank can’t offer the same technical and administrative support for payment transactions as our customers now receive from PPI.”

PPI’s solution provides a comprehensive payment processing system that includes all the critical products and services that define a successful integrated payment solution, including:

- Feature-rich, dependable credit card processing technology so customer transactions are processed seamlessly and reliably
- Free, unlimited 24/7/365 “Answer-the-Phone” technical and administrative support for developers and their customers to call regarding the payment solution
- Better-than-Bank merchant account services

“By offering everything from integration assistance to merchant account services, PPI is able to provide partners, such as Liberty Computers, with the ability to turn to one source for all aspects of support,” says Chuck Riegel, executive vice president, software products and partnerships at PPI. “Our comprehensive approach makes moving to integrated payment processing a worthwhile and profitable venture for all types of businesses.”

ABOUT PAYMENT PROCESSING, INC.

Payment Processing, Inc. (www.paypros.com) is the industry leader for integrated payment solutions. PPI provides software developers with a full range of services for

integrating electronic payments including gateway services, integration support, merchant support and services, and PABP/PCI security assistance. Additionally, PPI provides software developers with the ability to generate additional revenue while substantially reducing their support costs for integrated payments.

Today, PPI is the most successful company in the world focused on integrated payment processing, supporting over 600 software developers and more than 17,000 merchants with efficient, cost-effective payment solutions. In 2006, PPI processed over \$3 billion in Visa® and MasterCard® payments.
