

FOR IMMEDIATE RELEASE

Payment Processing, Inc. Announces the Availability of a Comprehensive Integrated Payments Solution for Microsoft Dynamics RMS

Solution Provides Resellers Revenue Opportunities, Free Technology, Marketing Services and Support

San Diego, California, March 13, 2007 – Payment Processing, Incorporated (PPI), the industry leader for integrated payment solutions, announced today at the Microsoft Convergence conference the availability of a comprehensive payment solution for Microsoft Dynamics RMS. This solution is offered free to Microsoft Dynamics Resellers and provides them with advanced technology designed specifically for Microsoft Dynamics RMS, additional revenue opportunities, technical support for their customers and marketing services for promoting the integrated payment solution to their clients.

“PPI has been providing POS resellers with comprehensive integrated payment solutions for twelve years and we are excited about the opportunity to extend this experience to the Microsoft Dynamics RMS reseller community,” says Chuck Riegel, EVP at PPI. “Our solution provides the resellers with an advanced technology solution combined with all the services they need to generate revenue without increased support costs.”

The PPI solution contains all the necessary components needed for a solution that will provide Microsoft Dynamics RMS resellers with significant revenue opportunities while at the same time providing them with all the services they need to support their customers.

The PPI Microsoft Dynamics RMS solution provides:

- Cutting-edge technology that streamlines merchant operations
- Customer set-up and ongoing 24/7/365 technical and administrative support
- Recurring revenue sharing and additional product revenue for resellers
- Marketing tools and support

“The integrated technology, end-to-end support, and quality merchant services that PPI offers is superior,” says Gary Levitan, President, NuRol Point of Sale. “Total support, no headaches, and generous revenue sharing – plus, it’s all free, so it’s an easy sell. Overall, PPI makes it easier for me to sell more product with less effort – and increase my profits.”

After an extensive review of technology products for integrated payments for Microsoft Dynamics RMS, PPI chose Hypercom's SmartPayments technology. This product provides:

- The ability to accept and process credit cards, debit cards, EBT and gift cards
- Lower rates with improved fraud protection using Address Verification (AVS), Card Verification (CV Numbers) and purchase card level II support
- Support for customer facing multi-lane terminals with signature capture such as the Hypercom L4100, Ingenico eN-Touch 1000 and VeriFone Everest & Omni

"PPI understands the complexities of an integrated solution and has simplified them for both resellers and end users with a simple yet comprehensive approach," says Bill Pittman, Vice President of Hypercom Payment Solutions, a division of Hypercom Corporation.

For more information, please visit the PPI web site at www.paypros.com or call (800) 774-6462 ext. 4989.

ABOUT PAYMENT PROCESSING, INC.

Payment Processing, Inc. (www.paypros.com) is the industry leader for integrated payment solutions. PPI provides software developers with a full range of services for integrating electronic payments including gateway services, integration support, merchant support and services, and PABP/PCI security assistance. Additionally, PPI provides software developers with the ability to generate additional revenue while substantially reducing their support costs for integrated payments.

Today, PPI is the most successful company in the world focused on integrated payment processing, supporting over 600 software developers and more than 19,000 merchants with efficient, cost-effective payment solutions. In 2006, PPI processed over \$3 billion in Visa® and MasterCard® payments.

Microsoft and Microsoft Dynamics RMS is either a registered trademark or trademark of Microsoft Corporation in the United States and/or other countries.
